**Dolnośląska Agencja  
Energii i Środowiska**

# PITCH-TALK SUMMARY

DAEŚ started the cooperation with the Marshall Office of Lower Silesia Voivodeships in order to prepare functional financial mechanism to support energy efficiency investment in new regional operational programme for years 2021-2027.

DAEŚ is a member of task force group to support The Board of Lower Silesia Voivodeships in the preparation process of operational regional program for years 2021-2027. Worked out outcomes and scopes of the program must include domestic and European strategic documents, European and domestic legislative package and assumptions concerning Multiannual Financial Framework.

Institutions responsible for the implementation of Regional Program is the operating office Marshal of the voivodaship (UMWD), which is a voivodeship unit organizational and unit budgetary local government voivodships . UMWD appointed institution mediating institution - DIP.

# CASE CONTENT AND ISSUE

The goal of Regional Operational Program for Lower Silesia voivodships is to increase competitiveness voivodships and improve residents life conditions by implementation sustainable development rules. Priorities financing are determined in the program, which means that the aid are forwarded to specified target groups.

When developing the regional operational program for 2021-2027, an important point is the consultation on the principles of support mechanisms under the funds, which will allow for the development of solutions aimed at efficient spending of public funds.

# SOLUTIONS APPLIED

DAEŚ within \_ cooperation with the Office Marszałkowski she was taking participation in working groups, during which the following tasks were carried out:

- Providing opinions on the initial assumptions for activities under the European Funds for Lower Silesia program in the years 2021-2027
- Consultations on the development of rules for support mechanisms under the funds of the regional operational program withing the scope of energy efficiency
- Discussion on important issues in the field of: documents related to the negotiating position of the Dolnośląskie Voivodeship Self-Government to the draft Program Contract, draft Partnership Agreement for the implementation of the cohesion policy 2021-2027 in Poland, results of consultations on the project Diagnosis of the socio-economic situation in the Dolnośląskie Voivodeship, the state of work on the perspective financial 2021-2027.

# RESULTS

Cooperation with the Marshal's Office of the Dolnośląskie Voivodeship will result in the development of a regional operational program for 2021-2027. One of the priority axes in the document is “A more environmentally friendly, low-carbon and zero-carbon economy and a resilient Europe by promoting a clean and fair energy transition”. The scope of this task includes, among others,

supporting energy efficiency and reducing greenhouse gas emissions, supporting renewable energy in accordance with Directive (EU) 2018/2001, including its sustainability criteria, and supporting the transformation towards a circular and resource-efficient economy.

	<b>CO2e emissions</b>	<b>Energy consumption</b>
<b>SMEs</b>	<b>62 488</b>	<b>36 690</b>
<b>Residential buildings</b>	<b>38 558</b>	<b>11 167</b>
<b>Public buildings</b>	<b>32 978</b>	<b>19 207</b>
<b>Total savings</b>	<b>134 024 Co2 / year</b>	<b>57 064 toe / year</b>

## LESSONS LEARNED

Thanks to the cooperation of the established working group, which included representatives of equal sectors, it was possible to properly identify activities requiring financial support in the Dolnośląskie Voivodeship.

## NEXT STEPS

In the next steps, the organization of a conference is planned, which in its program will include the presentation of a long-term renovation strategy and new mechanisms for financing energy efficiency. In addition, it is planned to raise the qualifications of employees of contracting companies, who will, among others, be responsible for the implementation of the assumptions of the long-term renovation strategy. In the Lower Silesia region, meetings with target groups such as real estate managers or entrepreneurs are also planned in order to familiarize them with the existing and planned mechanisms of financing sustainable energy.
